expected to attend, but am now
under the influence of the fever and
ague which makes the matter
somewhat uncertain. This is a very
peculiar disease - you are pros-

apparent good health. The whole host
pays an annual tax of about
one month to this disease -

Bro. A. A. Phelps,

Having taken up

my connections with C. Town, I have
been spending the summer in journeying
and visiting my friends in this State -
not knowing but I might ultimately remove
to this region, but that idea I have about
abandoned. I should like a good Parish
in the neighborhood of Boston better than
in almost any other region. How is it in
the one lately made vacant by the lamentable
fall of Dr. Fay? Have you any friends
among them with whom you have
influence? If so and you think best just
mention my name to them. If they or any
other good Parish should wish me to
come and preach as a candidate, they
may address a note to this place and
one also to Cincinnati
